

Michał Stepień

Web Developer

Experience

September 2023 - Currently

Junior Frontend developer @Nicman Group LLC

- Built front-end layer of application for detailed management of employee work shifts, availability, and scheduling conflicts.
- Translated Figma designs into functional and responsive web components, ensuring pixel-perfect implementation and seamless user experience across the application.
- Implementing unit tests with React Testing Library and Jest, maintaining high code quality and reliability.
- Collaborated in an Agile environment, contributing to code reviews, sprint planning, and continuous feature development.
- Automated deployment and enforced coding standards with GitLab CI/CD and ESLint, streamlining workflows.

Technologies I've been working with:

- JavaScript (ES6+)
- TypeScript
- React
- Tanstack Query
- Tailwind and Material UI
- Node.js
- Express
- React Testing Library and Jest
- Gitlab

September 2022 - May 2023

Junior System Architect @trenujemy.pl

- Creating the front-end layer of the admin panel using React.js and Recoil.js.
- Optimizing application performance and creating unit tests for React using React Testing Library.
- Converting received PSD projects into interactive user views using Vue.js.
- Maintaining clean and readable code, adhering to best programming practices and design standards.
- Collaborating with the team and participating in client meetings to understand user interface requirements and application functionality.
- Documenting implemented changes and documenting project progress.

Technologies I've been working with:

- JavaScript (ES6+)
- TypeScript
- React
- Recoil.js
- React Testing Library
- Vue
- Node.js
- Express
- GraphQL

Education

Bootcamps I have completed to enhance my programming skills:

- NEXT.JS MASTERS - Bootcamp covering creating e commerce applications using Next.js and other technologies such as Docker, AWS, GraphQL, Stripe and others.
- MegaK - 12-months long course aimed mainly at mastering the backend technologies.
- YouCode - Comprehensive and well organised course covering all basics of front end development.
- CodersCamp - 6-months long, free of charge web development course organised by CodersCrew.
- CODE:ME - Stationary 3-month long course in CODE:ME school in their Poznań branch covering basics of javascript and React framework.

I have also finished many online courses by great authors, such as:

- Maximilian Schwarzmuller
- Andrew Mead
- Jonas Schmedtmann
- Bartłomiej Borowczyk (Samuraj Programowania)
- Krzysztof Dąbrowski - Youcode
- Adam Romański (hello roman)

Skills

Frontend

- HTML5
- Javascript / Typescript
- React + Recoil / Redux Toolkit
- Next.js
- Vue.js
- SASS / SCSS
- Material UI / Bootstrap / TailwindCSS

Backend

- NodeJs
- NestJS
- GraphQL
- MySQL
- MongoDB

Design

- Figma
- Adobe XD
- Adobe Illustrator
- Adobe Photoshop

Language

- English - C1
- Polish - Native

Previous positions

Before I started programming, I worked on positions such as:

- Shift coordinator
- Supervisors assistant
- Currency Exchange Specialist
- Salesman
