

Michał Stepień

Junior Full Stack Developer

I began my programming journey by writing scripts for Google Spreadsheets using Google Apps Script, which is a JavaScript framework. Programming has become my true passion. The decision to become a programmer was a natural step in my development path.

Currently, my current project has come to an end, which is why I am seeking new employment. I am determined to find a new, inspiring work environment and continue to grow as a programmer, dedicating my full commitment and passion to projects.

Experience

September 2022 - May 2023

Junior System Architect @ trenujemy.pl

- Creating the front-end layer of the admin panel using React.js and Recoil.js.
- Optimizing application performance and creating unit tests for React using React Testing Library.
- Converting received PSD projects into interactive user views using Vue.js.
- Maintaining clean and readable code, adhering to best programming practices and design standards.
- Collaborating with the team and participating in client meetings to understand user interface requirements and application functionality.
- Documenting implemented changes and documenting project progress.

Technologies I've been working with:

- JavaScript (ES6+)
- TypeScript
- React
- Recoil.js
- React Testing Library
- Vue
- Node.js
- Express
- GraphQL

Previous positions

Before I started programming, I worked on positions such as:

- Shift coordinator
- Currency Exchange Specialist
- Supervisors assistant
- Salesman
- Buffer

Education

Bootcamps and Courses

Bootcamps I have completed to enhance my programming skills:

- MegaK - 12-months long course aimed mainly at mastering the backend technologies.
- YouCode - Comprehensive and well organised course covering all basics of front end development.
- CodersCamp - 6-months long, free of charge web development course organised by CodersCrew.
- CODE:ME - Stationary 3-month long course in CODE:ME school in their Poznań branch covering basics of javascript and React framework.

I have also finished many online courses by great authors, such as:

- Maximilian Schwarzmuller
- Andrew Mead
- Jonas Schmedtmann
- Bartłomiej Borowczyk (Samuraj Programowania)
- Krzysztof Dąbrowski - Youcode
- Adam Romański (hello roman)

Skills

Frontend

- HTML5
- Javascript / Typescript
- React + Recoil / Redux Toolkit
- Angular + RxJS + NgRx
- Vue.js
- SASS / SCSS
- Material UI / Bootstrap / TailwindCSS
- Basics of Wordpress
- Basics of php

Backend

- NodeJs
- NestJS
- GraphQL
- MySQL
- MongoDB

Tools

- Git
- WebStorm / VS Code

Design

- Figma
- Adobe XD
- Adobe Illustrator
- Adobe Photoshop

Language

English - C1

Polish - Native
